# **WEATHER KEY POINTS**

**04/28/19 - 05/04/19**

## **Sunday-Tuesday**

- Warm conditions will continue melting of snowpack and lead to rises in rivers and streams through today. Elevated run-off from this melting will linger into early next week.
  - A few rivers will crest near flood stage today, including the Merced River in Yosemite National Park and the Carson River in Alpine County
- A weak storm system moving through the region today through Tuesday will bring an increased chance of showers to the state
  - In general, only isolated showers and light rainfall are expected
    - Brief moderate to heavy rainfall is possible with thunderstorms in Southern Region on Monday
  - This storm will also be accompanied by breezy to windy conditions, especially in Southern Region
    - Gusty winds and blowing dust could impact travel, especially for high profile vehicles

## **Wednesday-Friday**

- Drier and somewhat warmer weather currently looks to return for the latter half of the week

## **Saturday-Sunday**

- The next storm system is expected to move across the state next weekend, bringing a renewed threat of showers and thunderstorms

# CALIFORNIA WEATHER IMPACTS

04/28/19 - 05/04/19
